A message from Paula Drouin

Founder and President of ADR
International Group **and** the
innovative mind behind the World
Mediation Summit

I am full of gratitude that you are taking time to consider supporting this gathering.

It is a celebration of everyone who chooses to help people, organizations, communities, or countries find peaceful ways to create understanding and resolution.

It is an opportunity to bring attention to insider mediators, those volunteering in their communities to prevent conflict escalation and provides processes for resolving differences.

Thankyou for helping us create a platform for networking, learning and inspiration.
